A WARNING.—Quite a number of Negroes are said to have come here Monday with loaded shot guns, doubtless by advice of their leaders. We are told that a Negro preacher who is holding a "revival" in the West End, exhorts his hearers to go to the polls two and two with arms ready to shoot down the first white man who gets in their way. There is going to be trouble if this advice is followed, and those contemplating it had better be warned in time.

DIDN'T SAY IT.—Col. D. G. Colson, who was on Tuesday night's train, asked us to correct the report that he said in his Salversville speech that a red-headed mountaineer ought to have covered House Clerk Ed Leigh with a Winchester and made him shake the box containing the names from which the Goebel contest committee was drawn. He says he did not use such language and what he did say was in a facetious way and so understood by his hearers. He says he is very fond of Mr. Leigh and besides does not approve of that method of coercing a public servant. We thought the colonel had too much sense and too much manliness to make such a remark.

WINDOW glass of all sizes at Craig & Hocker's.

DEMOCRACY has a treat in store. The noblest Roman of them all, Senator J. C. Blackburn, will speak at Lancaster at 2 P. M. on the 22d and in Stanford at night. They have over 400 toll stations, embracing 30 county seats and covering about one-third of the State. The object of the association is to provide better and more uniform equipment of the lines, uniform rates for toll stations, full metallic circuits, etc. A new company will shortly be in operation at Lexington in conjunction with the association, and an independent company in Louisville is under consideration.

The Cobb & Lillard sale of Short-horns was not entirely satisfactory to the firm, as the prices were not fully up to anticipation. This, in large part, was due to the absence of several good buyers, who failed to come. Forty sold, averaging \$116 for females and \$90 for males.—Advocate.

At Albion, Mich., Mr. Bryan nailed Roosevelt by showing in his reply to Roosevelt's statement that the Philippine war caused the increase in the army, that the president asked for the increase two months before a shot was fired in the Philippines. He also made a crushing reply to the letter of Assistant Secretary of War McKillop made public, who denied his statement that slavery was recognized in Sulu by agreement with the Sulu.

ROYAL

The absolutely pure

BAKING POWDER

ROYAL—the most celebrated of all the baking powders in the world—celebrated for its great leavening strength and purity. It makes your cakes, biscuit, bread, etc., healthful; it assures you against alum and all forms of adulteration that go with the cheap brands.

Alum baking powders are low priced, as alum costs but two cents a pound; but alum is a corrosive poison and it renders the baking powder dangerous to use in food.

THE YOUTSEY TRIAL.

Feigns Insanity And Case Is Postponed Till Today.

The ruling that what Youtsey said to James Andrew Scott, as an attorney can not be forced to be divulged in court may be good law, but those who want to know the whole story of the damnable plot to remove Gov. Goebel will regret that it was not brought out in the evidence. There is no doubt of the fact that if Youtsey tells the truth he will succeed in getting his own neck in the halter, besides "hanging" Taylor and damning the republican party.

While Arthur Goebel, brother of the murdered man, was testifying, Youtsey sprang from his seat and rushed toward him shouting: "That's a lie."

His lawyers and the officers of the court seized him, but he twice broke away from them, wildly denouncing the testimony against him and protesting his innocence. Most of the audience fled from the court room in a panic and when quiet was restored Youtsey was found to be so completely unnerved that the court adjourned. Youtsey continued to act like one demented as he was taken back to jail and could be heard in his cell yelling: "Hurrah for Goebel!" Physicians at last quieted him with opiates.

Next morning Youtsey was reported to be in a stupor and Judge Castrill consented to adjourn court until next day. The opinion at Georgetown is divided, some maintaining that Youtsey is crazy and others believing he is only shamming.

Youtsey was still in a stupor from the effects of opiates and his trial was again continued till today.
